## DR NICHOLAS MORTON

### CURRICULUM VITAE

---

#### Clinical Experience

Dr Nick Morton is a Consultant Clinical Neuropsychologist associated with NRG. He is a member of the British Psychological Society Register of Clinical Neuropsychologists and an HCPC Registered Practitioner Psychologist. He has worked in the area of neurorehabilitation for thirty years, both in the NHS and independent sector services in London, South Yorkshire and the North West.

Nick has worked part-time in independent practice and consultancy since 1998, offering Clinical Neuropsychology services both as a treating clinician and medico-legal expert. He has worked with individuals who have a range of progressive and non-progressive neuro conditions across acute, post-acute and community based services. Since 2022 Nick has worked with NRG providing neuropsychological assessment, treatment and consultancy with adults.

#### Specialism

TBI and ABI in Adults. Neuropsychological assessment, mental capacity assessment, Expert Witness, long term neurological conditions both non-progressive and progressive, clinical supervision with clinical psychological and non-psychological professionals.

#### Geographical Area

Yorkshire, Derbyshire and East Midlands
